

# CAMLOC FASTENERS

The 2600 and 2700 series Camloc fasteners exceed requirements for MIL-F-5591, Style 3, Size 2. Shear and tensile strength: 300 lbs. (ultimate), 200 lbs. (rated). Studs and washers listed are made of steel. The receptacles are made of copper base alloy. All components listed are rated to 450° F. The 4002 series fasteners are considerably stronger than the 2600 and 2700 series. Shear and tensile strength: 1050 lbs. (ultimate), 700 lbs. (rated). All studs and grommets listed are made of steel. Rated to 450° F.

## RECEPTACLES

2600 Series - Small enough to fit in limited mounting space and light weight. All of these fasteners have a 600# ultimate tensile load capacity. 4200 Series - The Modern Standard in Quick Release Fastening Systems. They have an 800# working strength and 1050# Ultimate Tensile load capacity.

Rivet Holes	2600, 2700 Series Part No.	Price Each	4002 Series Part No.	Price Each
Plain	212-12N	\$3.65	214-16N	\$5.40
Countersunk	212-12ND*	\$5.35	214-16ND*	\$8.90
Plain	Floating Bronze	---	244-16	\$8.90

## 2600 / 2700 SERIES STUD LENGTH SELECTION

Total material thickness "G" consists of the thickness of all materials to be fastened. This must include the thickness of the material "P" to which the stud assembly is attached, the material "F" to which the receptacle is attached plus gaskets (if used) and allowance for paint or other protective finishes. If the total thickness is near the upper limit of the stud grip range, the next longer stud should be used. This will still maintain positive locking of the fastener under vibration. P (panel thickness) ..... .062 F (frame thickness) ..... + .062 GRIP (total thickness) ..... = .124

## STUD SELECTION TABLE Using 212-12 Receptacle

Total Grip Thickness	Use 2600	Use 2700
.020 - .059	2600-1	2700-1
.060 - .089	2600-2	2700-2
.090 - .119	2600-3	2700-3
.120 - .149	2600-4	2700-4
.150 - .179	2600-5	2700-5
.180 - .209	2600-6	2700-6
.210 - .239	2600-7	2700-7
.240 - .269	2600-8	2700-8
.270 - .299	2600-9	2700-9
.300 - .329	2600-10	2700-10
.330 - .359	2600-11	2700-11
.360 - .389	2600-12	2700-12
.390 - .419	2600-13	2700-13
.420 - .449	2600-14	2700-14

## 4002 SERIES (LARGE HEAD) STUD SELECTION

To select the proper length stud, first select the grommet, for example 4002-G. Next, select the receptacle, such as 214-16. After determining the total grip thickness, use the grommet column under which the selected grommet and receptacle appear. Use the dash number which appears opposite the determined total grip thickness.

Example: If the total determined grip thickness "G" was .144, the stud dash number for the above 4002-G grommet and 214-16 receptacle would be -4. The stud part number would be 4002-4.

Total Grip Thickness Range "G"	Stud Dash Number	
	4002-G Grommet & 214-16 Receptacle	4002-N, 4002-O Grommet & 214-16 Receptacle
.021 - .050	--*	-1
.055 - .080	--*	-2
.081 - .110	-2*	-3
.111 - .140	-3	-4
.141 - .170	-4	-5
.171 - .200	-5	-6
.201 - .230	-6	-7
.231 - .260	-7	-8
.261 - .290	-8	-9
.291 - .320	-9	-10
.321 - .350	-10	-11
.351 - .380	-11	-12
.381 - .410	-12	-13
.411 - .440	-13	-14
.441 - .470	-14	-15
.471 - .500	-15	-16
.501 - .530	-16	-17
.531 - .560	-17	-

\*4002-G grommet requires .090" minimum grip.

## 2600, 2700 SERIES RETAINING WASHERS

Retaining washers are required for studs of -5 length or greater. Use split washer 2600-SW2 where it is desirable to have the stud fall away for minimum internal projection. Use internal tooth washer 2600-LW where it is desirable to retain the stud assembly rigidly.

P/N 2600-SW-2 ..... \$2.45 P/N 2600-LW ..... \$0.95

## 4002 SERIES GROMMETS & SNAP RINGS

Description	Part No.	Price
<b>CAD Plated</b>		
Flush Grommet	4002-G	\$1.40
Flush Grommet	4002-H	\$4.45
Plus-Flush Grommet	4002-N	\$2.30
Stud Retaining Grommet	4002-O	\$3.50
High Shear Flush Grommet	40G1-5	\$4.95
Wide Area Grommet	4002-N3	\$5.35
Grommet Retaining Ring	R4G	\$1.25
Camloc Retaining Ring	4002-SW	\$2.75
High Shear Grommet Retaining Ring	R4T	\$5.70
<b>Stainless</b>		
High Shear Grommet Retaining Ring	40G26-1	\$2.60
Flush Grommet	4002-GS	\$3.65
Flush Grommet	4002-HS	\$6.50
Plus Flush Grommet	4002-NS	\$6.50
Flush Grommet	4002-OS	\$4.60

## SKYBOLT CAMLOC RETAINING RING SK-R4T

4000 Series Heavy Duty Grommet Retainer. Superior Quality Panel Fastener Manufacturing since 1982. U.S. Manufacturer & Distributor of the highest grade stainless steel 1/4-Turn Panel Fasteners, Grommets & Receptacles, and many other innovative fastening solutions..... P/N 04-04194 ..... \$0.70
