

# AIRMAN7P-0211 Double Side Headset, XLR5, 600 ohm

## Airman 7+

- ▶ On-the-ear design with large soft, pliable leatherette ear cushions and headband pads.
- ▶ Flexible boom-mounted, noise-reducing microphone that can be positioned for right or left-side use.
- ▶ Stainless steel headband and pivot points for superior durability.

The Telex AIRMAN 7P is a lightweight passive noise reduction headset designed specifically for optimizing pilot communications in commercial and business turbine aircraft. Building on the tradition of the Airman 750 and the Airman 7, AIRMAN 7P has improved durability, intelligibility, and comfort. Larger soft pliable ear cushions and headband pads combine with dual-direction ear cup pivots to provide increased passive noise reduction and long flight wearing comfort.
